

PRESS RELEASE

AAQIUS

GET TO THE FUTURE _____ FIRST

AAQIUS signs historic agreement
with the Chinese service station leader,
CENSTAR

AAQIUS

Censtar

Stor-H, the new energy standard
for green mobility

Mr Stéphane Aver, CEO, AAQIUS, Mr Jean-Pierre Raffarin, former French Prime Minister and official representative of France, Ms Xiulian Gu, former Vice-Chairwoman of the National People's Congress of China (Deputy Prime Minister) and Chairwoman of the All-China Environment Federation and Mr Haojie Li, Chairman of the Censtar Group.

An agreement representing AAQIUS' first steps in China

The cooperation agreement between AAQIUS and the new national economic zone of Jiangbei, signed on 23 March 2017 under the aegis of former Prime Minister Jean-Pierre Raffarin, is the first concrete example of a partnership between the Franco-Swiss company, specialised in energy, and the Chinese giant. Central to this agreement was the significant step of setting up a joint AAQIUS-CENSTAR design office at Jiangbei, which aims to identify the technical and economic prerequisites for rolling out STOR-H technology - developed by AAQIUS - across the zone.

Mr Stéphane Aver and Mr Jean-Pierre Raffarin alongside Mr Haojie Li following the signing of the agreement.

Mr Haobo Zhao, Executive Director, Censtar, Mr Liang (Juilien) Zhou, Vice General Manager, Censtar, Mr Zhen Chen, Chairman of the Supervisory Board, Censtar, Mr Wei Yu, General Manager, Censtar, Mr Haojie Li, Chairman, Censtar, Mr Stéphane Aver, CEO, Aaqius, Ms Wendy Du, project manager, Aaqius, Mr Richard Michel, Board Advisor, Aaqius, Dr Jean-Baptiste Dementhon, Vice-President Technology & Platforms, Aaqius.

CENSTAR: the partner of choice for project delivery

The alliance between AAQIUS and CENSTAR represents an ideal balance between the expertise that each can offer in the delivery of a new and innovative project. In China, AAQIUS is consequently joining forces with one of the leading partners in intelligent energies and innovative distribution. With over 100,000 service stations located across China, CENSTAR is truly an outstanding player in this market and a partner of choice. CENSTAR has developed no less than 14 national patents in research and development for fuel and maintenance equipment. Its market share across China is consistently in the region of 60%; crossing the border into Mongolia that figure reaches as high as 100%.

Censtar Chairman, Mr Haojie Li is openly gratified alongside AAQIUS CEO, Mr Stephane Aver, following the signing of the agreement.

The two companies have developed an ambitious work schedule so as to be fully prepared for a projected roll-out towards the end of 2018.

In the words of AAQIUS CEO, Stéphane Aver: « The partnership between our company and CENSTAR, sealed by the agreement of 16 May 2017, will undoubtedly aid our respective nations' development in the energy transition sector. We are at the outset of a great adventure, where we will have the rare opportunity to develop the entire ecosystem of our model in China: from building the STOR-H cartridges to distributing them ».

Ms Xiulian Gu, former Vice-Chairwoman of the National People's Congress of China (Deputy Prime Minister), shares her enthusiasm during a passionate speech.
